

Armaton MP Tarpaulin Kit

Accessory for Armaton Modular Platform

Armaton MP Tarpaulin Kit includes a tarpaulin with aluminum stand designed for Armaton Modular Platform. The kit is easy to assemble and disassemble as the stand mounts into existing pillars on the platform and the tarpaulin attaches directly to the dropside without need for exterior straps or buttons.

The tarpaulin has separate curtain sides and roof to facilitate maintenance and a light-permeable roofing which provides more light to the load area.

For platforms with side pillars the tarpaulin can be equipped with removable side bars to make loading and unloading easier from the side.

Armaton MP Tarpaulin is an accessory uniquely designed for the Armaton Modular Platform.

Additional features for the Armaton MP Tarpaulin Kit:

- Transparent screen against cab window for overview of the loading area
- The tarpaulin is easy to close with hidden straps and magnetic locking
- The rear curtain can be rolled up. Roll-up function for the sides is additional option
- Delivered as a flat package containing tarpaulin and aluminum stand
- Easy to assemble and disassemble

Armaton MP Tarpaulin

Features

Armaton MP Tarpaulin has light-permeable roofing which provides more light to the load area. The transparent screen against the cab window provides overview of the loading area.

The dropside design makes it possible to mount the tarpaulin directly to the dropside without need for exterior straps or buttons.

For platforms with side pillars the tarpaulin can be equipped with removable side bars to make loading and unloading easier from the side.

The rear curtain can be rolled up. Roll-up function for the sides can be added.

The tarpaulin is easy to close with hidden straps and magnetic locking.
